Hi Nancy,

thanks, I wonder what will come out of this...

>>

>> How far NE of DFW airport? I do not see anything from the Comcat catalog. There was a January 23, 2013 earthquake just northeast of the shut-in disposal well, but it is east of the center of the airport area. There are the new (unrelated) earthquakes near Azle in the news, but they are northwest.

Did you have a corrected location from their older article, please? I was only wondering if it would make any difference in the wavelet (?) modeling?
